ANNEXURE-II

Statement of imputations of misconduct in support of Article of Charges framed against Sri S.V.Chandra Mouli, Deputy Executive Engineer, PRI Sub-Division, Saluru

The Chief Engineer, PR, Hyderabad vide his letter No.QC1/MGNREGS/V&QC/VSP/2015, dt. 17-04-2015 submitted the copies of inspection reports received from the EE, V&QC, Vishakhapatnam for the work "Providing internal roads with CC Drains in SC/ST localities at Guntabadra Village in Makkuva (M) with an estimated cost of Rs. 12.00 lakhs" proposing total recovery of Rs. 1,79,485/-.

Findings of V& QC staff

1. Recovery due to the less thickness of CC pavement was calculated/ arrived at Rs.1,13,363/- and the same may be recovered.
2. The work is in progress.
3. Design mix details for M30 grade concrete are not shown at the time of inspection and it seems that the work is carried out without design mix.
4. Strength of CC road was not verified due to lack of machinery. Hence the field officers are requested to ascertain the strength of cc road before proceeding further.
5. NMR's and Paid vouchers are not available for verification at the time of inspection.
6. Field officers are recorded M30 design mix concrete for CC pavement without testing/obtaining any report regarding strength of pavement. It is not known the mix M30 was obtained at site without knowing mix proportion. Hence, the field officers are requested to take necessary action for conducting core test and to obtain test report for strength of CC pavement as per specification. If the strength obtained is not within tolerable limits of required strength, necessary action to be taken as per rules in force.
7. The existing crust particular are not mentioned in the specification report of sanctioned estimate.
8. Polythene sheet was observed under the CC pavement but requires improvement (It should be covered sides also)
9. Needle vibrator and Plasticizer are not provided in the estimate. They should be provided to improve compaction and workability of concrete so as to increase the strength.
10. It is suggested to provide plasticizers are not provided in the estimate. They should be provided to improve compaction and workability of concrete over W/C ratio and workability.
11. The spacing of the contraction joints are not as per the standards at certain places. The spacing should not be less than the width of the road or not more than 4.50 m. The joints should be treated and sealed with sealing compound.
12. QC register is not shown by the field officers. It seems that no QC register IS maintained.
13. The edges of CG pavement were not laid. But payment of Rs.7052/- was made for collection of GSB for shoulders VP No.02 of MB No.1243-A. The spreading and compaction of GSB was recorded with 1.75 to 1.90 mts with VO 01 & 03 of MB No.1577/A on 26-12-2013. The reach and the details for this work was spreaded not mentioned in the M.Book. The bill for this work was submitted by the DyEE/PRI/Saluru to Division office on 27-03-2014. But payment was not recommended for spreading and compaction of GSB.

14. In the original estimate CC pavement was proposed on WBM Gr-II layer. But the CC pavement on sand bed was approved in the working estimate.
15. The width of drain walls and kerb wails was not maintained uniformly.
16. Name board was not fixed.
